

Building Safer Communities Through Early Intervention

How targeted support for young people reduces anti-social behaviour

Anti-social behaviour starts early – so can the solution:

Youth nuisance

Lack of activities

Fear of crime

Exploitation risk

Without early support, behaviour patterns escalate

OUR APPROACH

1. Character education programmes embedded in school life

2. 1:1 mentoring & group sessions

3. Focus on behaviour, attendance, resilience & decision making

4. Delivered by trained instructors, including veterans

The Riverside Partnership

Targeting communities that need it most

- Funded through Riverside Foundation
- Reduce anti-social behaviour
- Build safer neighbourhoods
- Support vulnerable young people

IMPACT TO DATE

1,820+
young people supported

1,000+
school-led programmes

820
young people directly supported by instructors

Behaviour:

72% improved, incidents down by an average of 1.8%

Attendance:

Majority improved

Real Change in Action

What this looks like on the ground:

- Pupils calmer and more reflective
- Improved classroom behaviour
- Increased engagement with school
- Stronger relationships with mentors

“It helps me think before I react.”
– Pupil

THE OUTCOME

Safer communities start here

Reduced anti-social behaviour

Improved school engagement

Stronger, more resilient young people

Safer neighbourhoods for everyone
